## TARIFF SCHEDULE.

IN EFFECT NOVEMBER 1, 1894.

**TOLL LINES OF THE  
NEW ENGLAND TELEPHONE AND TELEGRAPH CO.  
AND CONNECTING COMPANIES.**

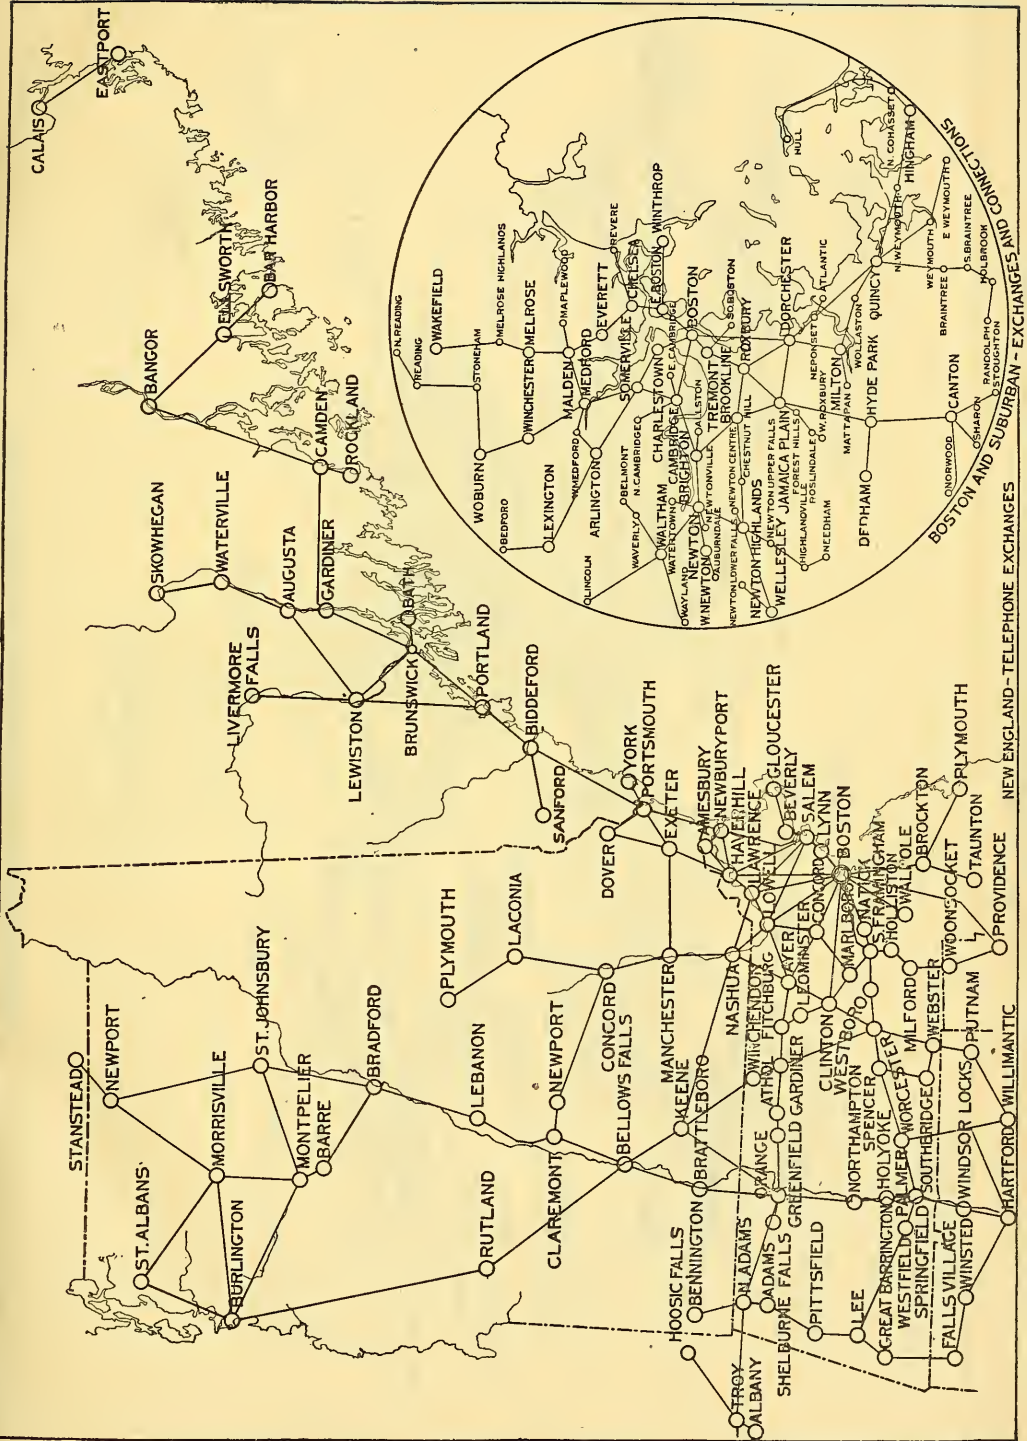

SUBJECT TO CHANGE WITHOUT NOTICE.

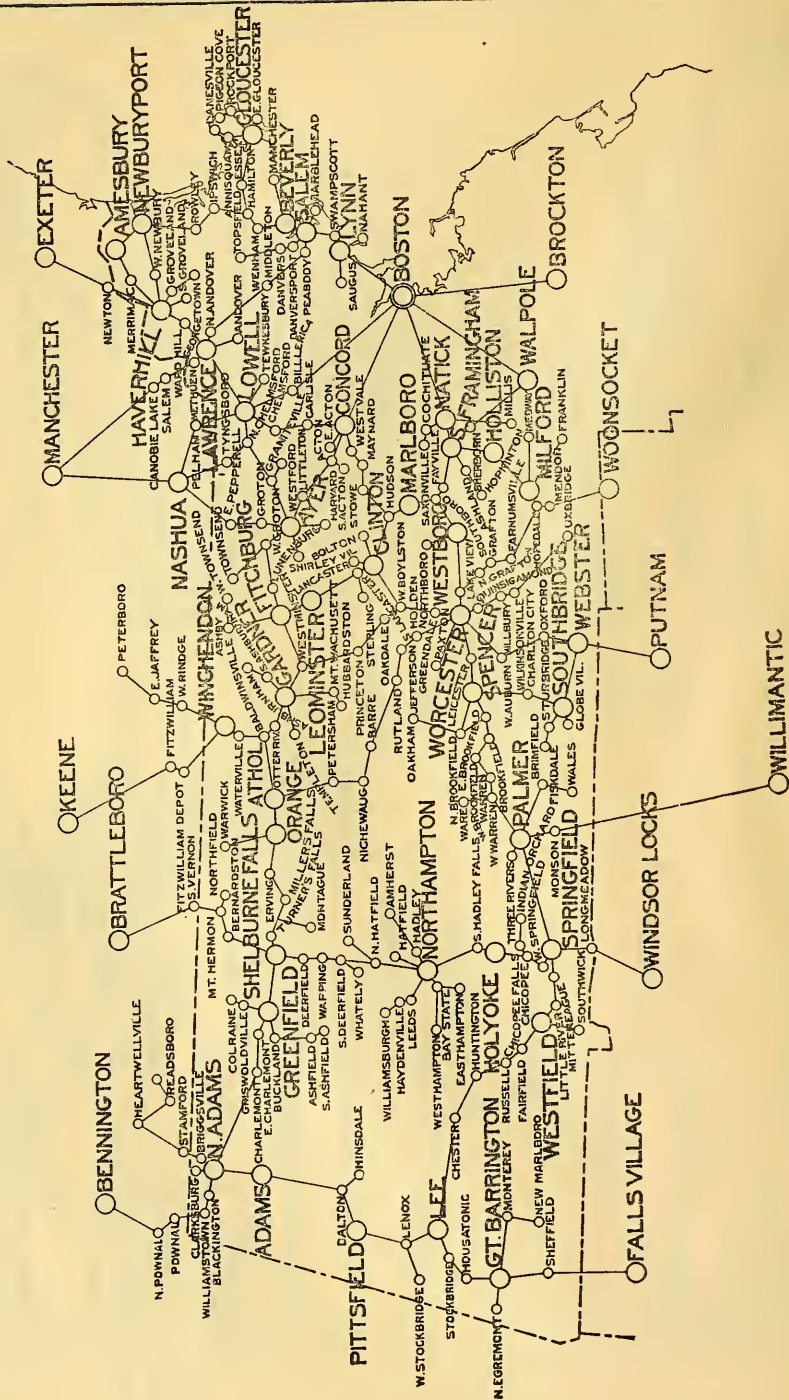

- 7 The tariff named herein is for a continuous conversation of not more than five (5) minutes. For each additional five minutes, or fraction thereof, not more than five (5) minutes, the tariff shall be \$1.00.
- 8 Subscribers will be allowed a discount of up to ten per cent on toll and extra-territorial payments, on amounts exceeding ten dollars for persons calling from any station in one month—the two halves of discounts to be added together before making the discount. The discount will be applied to the amount of the bill received after the computing discounts the business of each station will be considered separately.
- 9 The regular tariff rates will be collected when communication is established with the station called for, whether the person wanted is present or not, subject to the provisions of General Order No. 19.
- 10 The tariff from any station forming a part of an exchange as named in this list, will be taken from the Central office of such exchange, except when otherwise authorized.
- 11 Messages can be sent "collect" if satisfactory to the receiver. Manager will advise themselves that the person receiving it "collect" message understands that it is to be paid by him, and will then enter and check the message as if from person receiving end.

This Schedule supersedes all Toll Line rates heretofore made between points mentioned.

## FOR THE ACCOMMODATION OF

Non-Subscribers and the Public Generally, the Company has established Public Telephone Pay Stations in different parts of the City.

## For Boston and Suburban Exchanges.

# Instructions and Important Suggestions.

## DESTROY ALL PREVIOUS LISTS.

THE NEW ENGLAND TELEPHONE AND TELEGRAPH COMPANY ASSUMES NO LIABILITY WHATEVER FOR DAMAGES ACCRUING FROM ERRORS OR OMISSIONS IN THE MAKING UP AND PRINTING OF THIS BOOK.

## RULES FOR CALLING

### AT BOSTON, HAYMARKET AND TREMONT OFFICES.

When the office is called, the operator will say, "What number?" naming her Exchange. For example, "What number? Boston."

You will then give the number wanted; if the subscriber to be called is in another exchange, give both the name of the exchange and number of the subscriber.

When the operator of the exchange asked for responds, you will again repeat the number of the subscriber desired.

The operators in all cases will repeat the number.

If the line is found in use, the operator will answer "Line busy." Otherwise she will make the connection and say "Connected," and the way will be open for conversation as soon as the subscriber answers the call. If the station connected fails to answer within 30 seconds, hang the telephone on the hook, and give one sharp ring. The operator will inquire "Finished?"

Upon being informed that communication has not been established, the operator will ring a second time.

Keep the telephone to the ear until the subscriber asked for answers.

After your conversation is finished, hang up the telephone and give one short ring, as this clears the line for another call. Uniformity of method saves time for everyone.

### *For Suburban and Branch Office Subscribers Calling for Boston, Haymarket, Tremont or Other Suburban Stations.*

Subscribers connected with Suburban or Branch offices should call, in the first instance, the name of Exchange and number wanted.

In calling for connections, keep the telephone to the ear until the Exchange asked for, answers.

Give the operator the figures of the number you call for separately, as: "1-3-1-5," instead of "thirteen hundred and fifteen."

### *When Calling for Offices Beyond the Limits of the Suburban Exchanges,*

give to the operator first answering your call your telephone number and the name of Exchange desired. Your line will then be connected on the "toll table" and the operator will say "Toll line?" Give in reply your number and name, and the Exchange, name and number of party desired.

## ANSWERING.

Answer promptly when you are called, as this is essential to good service. *By so doing you will save time for your correspondent and for other subscribers.*

## IN GENERAL.

Never leave the telephone till you have finished, as the operator will disconnect if she finds no one using it. Hold the telephone firmly to the ear. Speak in an ordinary tone of voice as close to the transmitter as possible. Always return the telephone to its proper place after using it, otherwise the Central Office cannot call you, and your battery will be speedily exhausted, so that you cannot talk through your transmitter.

We ask and expect courteous treatment for our operators, who are forbidden to directly receive any complaints from our subscribers, because all their time should be taken up in making connections.

All persons, whether subscribers or not, must pay for use of telephone at public stations.

The use of the telephone is limited to the subscriber, his family, or employee in his interest. Subscribers have not the right to allow its use by other parties. Instruments may be removed if this condition of the lease is disregarded.

Subscribers are requested to refer those desiring the use of the telephone to the nearest PUBLIC PAY STATION.

Subscribers of the Boston, Haymarket and Tremont Exchanges are connected with the Suburban subscribers without extra charge. Suburban subscribers pay an extra charge of ten cents for each connection with the Boston, Haymarket or Tremont Exchanges, unless their contracts are for full Exchange service.

Subscribers wishing telephones removed are expected to give thirty days' notice in writing, in accordance with their contracts.

Transfer of instruments will be made, if desired, once annually from one Exchange to another for a portion of the year at highest rate.

A residence subscriber, whose contract for one year has expired, who shall request disconnection of his instrument on account of absence from his house, will be allowed a rebate of rental of 50 per cent. for the period of such absence, not, however, to exceed five months in any year. Payment of rental, as the same becomes due, will be required during absence.

The cost of moving instruments from one location to another will in all cases be charged to the subscriber.

NOTICE — During thunder showers calls will not be answered.

---

## COMPLAINTS.

Owing to the extreme sensitiveness of the telephone to many disturbing causes, even with the exercise of great care on the part of the Company's employees the instruments may work unsatisfactorily without our knowledge, and we are in great measure dependent for information of defective service upon our subscribers, who are EARNESTLY REQUESTED to REPORT at once, to the Exchange Manager or by letter to the Division Superintendent, any failure to obtain prompt attention and efficient service.

In case of ordinary troubles, subscribers should first give notice to the manager of the local office, and if the trouble is not quickly remedied notify the Superintendent, telephone, "Boston, 256," who requests that he be informed of any apparent neglect on the part of any of the local offices.

The morning test call is made for the purpose of ascertaining whether any of the subscribers' lines or instruments are not in working order, and require immediate attention. It is an obvious and valuable means for ensuring good service. Subscribers who object to answering this call and require its discontinuance are requested to give notice accordingly and the test call upon their especial lines will no longer be made.

Our inspectors often find that trouble which subscribers have in being heard is caused by the use of various forms of mouth-pieces, attachments which are being sold to telephone users under different names.

Subscribers are asked to decline the use of all apparatus in connection with the telephones other than that furnished by the Company under contract.

To insure prompt connections, subscribers are requested to use the latest issue of our list, as it frequently becomes necessary (on account of removals) to change numbers, although every effort will be made to retain them.

---

## TOLL LINE CONNECTIONS.

### IN GENERAL.

When a subscriber, who has more than one station in the same exchange, is called over a toll line, if he be not found at the first station called, the operator shall, if so requested, then call his other stations, and but one toll charge shall be made.

Whenever from any cause the subscriber thinks a charge should not be made, the facts must be reported to the manager within twenty-four hours or no rebate can be made.

All Toll line connections are charged to the subscriber from whose instrument they originate.

Subscribers are responsible for all toll connections made from their respective stations.

Bills for toll line service will be presented monthly for payment, and parties who do not pay their bills promptly will be refused the use of toll lines.

For rates to all principal points in New England and discount on Toll and Extra-territorial business, see Tariff Sheet, page A

### FROM PUBLIC STATIONS.

All communications will be charged for, and at the highest established rate, whether prepaid or collect.

When communication is established with a station not listed as a public station a toll charge will be made whether the person wanted is present or not.

When connection is established with a public station and a person is sent for to come to the telephone, the toll and messenger charge, if any, must be collected in advance.

If the messenger is unable to find the party desired and no communication is established the toll charge will be refunded.

When the person sent for comes to the telephone and the sender for any reason does not stay to talk with him, no rebate will be made.

A toll charge will be made in cases where the party sent for refuses to go to the telephone.

### FROM SUBSCRIBERS' STATIONS TO PUBLIC STATIONS.

When a call is made for a person to go to a public station telephone, and communication is established between the person called for and the station of the party calling, a regular toll charge will be made, also messenger charge, if any. One toll charge only will be made for such transaction.

If the person called for is not found, or if connection cannot be established with the calling subscriber's station, only the charge for messenger service will be made.

## REPETITION OF COMMUNICATIONS.

This Company furnishes its facilities for personal communication between parties. Repetition or assistance by the operator will be permitted only when necessary to facilitate business, and then only upon request of the party communicating, and upon the distinct understanding that the Company assumes no responsibility for error.

---

## DELIVERY OF MESSAGES.

The NEW ENGLAND TELEPHONE AND TELEGRAPH COMPANY assumes no responsibility for the delivery of messages by messengers beyond the amount paid by the sender for such message. Subscribers can send a fifteen-word message (one cent for each additional word) to a non-subscriber for twenty-five cents, and receive an answer without additional charge, when such message is to go within a half-mile of the delivery office. Outside of this limit the additional charge will be the regular tariff charges of District Messenger service. This applies only to offices of the Boston Exchange of the NEW ENGLAND TELEPHONE AND TELEGRAPH COMPANY. The Lynn rate is twenty-five cents for a fifteen-word message, and two cents for each additional word and Messenger Service.

Subscribers desiring messenger service will receive prompt attention by calling either of the following companies: Boston District Messenger Co., Boston, \*2497, office, 234 Devonshire street; Tremont, \*646, office, 289 Tremont street; Tremont, \*633, office, basement Hotel Victoria; Mutual District Messenger Co., Boston, \*418, basement Old State House.

---

## IT MAY BECOME NECESSARY TO CHANGE NUMBERS.

Subscribers should bear this in mind when having printing done, and it is suggested that the words "Connected by telephone" be used in advertising instead of the number. If, however, the number is used, the NAME of the exchange should always precede it.

---

## TELEGRAMS BY TELEPHONE.

The Telephone Company permits the use of instruments and wires for placing subscribers in communication with the offices of the Western Union Telegraph Company for the purpose of sending despatches.

The Telephone Company does not assume any responsibility for the correct transmission of messages, nor does it collect the charges for such messages.

If subscribers desire to send telegrams by telephone, they must first arrange with the Western Union Telegraph Company by personal application at the Company's offices for the reception and transmission of their telegrams and payment of the charges.

Messages received by the Telegraph Company, addressed to subscribers of the Telephone Company, can be transmitted to such subscribers within the Exchange from the telephones placed in the Telegraph Company's offices, without additional charge to the subscriber. But the Telephone Company assumes no responsibility for the correct transmission of messages, and does not collect the telegraph charges.

If subscribers desire that telegraph messages addressed to them be delivered by telephone, they should make application to the Telegraph Company for such delivery.

---

## ADVERTISEMENTS.

A Subscriber's name printed in capitals refers to advertisement in the back of the Directory.

## PRIVATE LINE DEPARTMENT.

The Private Line Service provides for the connection by telephone, at small cost, of offices or apartments in public buildings, hotels and apartment blocks, office buildings, manufactories and stores, detached shops and offices of manufacturing establishments, farm buildings, house and stables, residences, mills or business houses, separated by a distance of twenty-five miles or less.

### SPEAKING TUBE SERVICE.

In order to meet the rapidly increasing demand for an inexpensive service for use in hotels, public buildings, stores, factories, manufacturing and business establishments of all kinds, especial attention has been given to the work of designing instruments and apparatus suitable for the rendering of the most efficient service, and we are now prepared to offer, at greatly reduced rates, the highest grade of telephone instruments and appliances for use in connection with our various systems.

One of the recent developments in telephony which presents many advantages over the ordinary methods commonly used, is that known as the "Common Battery System." For speaking tube service it has marked advantages over any other system yet devised, and will render the most excellent service. Instead of providing a separate battery for each instrument, as has been the custom heretofore, the entire plant is operated by a single set of batteries, which in many cases may not only be used for talking, but for calling purposes, thereby dispensing with the magneto generators.

These batteries may be located at any place where they can be easily kept in order, and a less number is required than in cases where a separate battery is used for each instrument, as is necessary when other systems are employed.

Upon application to any exchange, or to the Executive Office, the Company will be pleased to furnish additional information and to prepare estimates of the cost of installing the wires, instruments and apparatus.

As we use only the best materials, and employ only competent men for installing these systems, our patrons may be assured that all work will be done in a most thorough manner.

### INSTRUMENTS AND APPARATUS.

In view of the fact that telephone instruments are of necessity of delicate construction and peculiarly subject to accidental injuries and to defects which can be found and remedied only by experts, it is our opinion that the requirements of our patrons will be better satisfied by lease, thus securing to the lessee the privilege of returning defective instruments for replacement or repair, than by the sale of the limited portion of the telephone equipment which can be sold, and the assumption by the purchaser of risks of defects and the expense of repairs and depreciation.

Users of telephones and transmitters leased from this Company secure the advantages of inventions and improved instruments which are not the subject of sale.

As the style of instruments and apparatus required will depend upon the conditions under which the system is to be operated, each case should be considered separately, and for this reason we suggest that parties desiring to lease instruments for the purposes herein described make application to the general office of the Company, stating fully their requirements.

If further information should be desired, the Company will be pleased to furnish it, upon application to its Executive Office, 125 Milk Street, Boston, Mass., or by calling for Telephone, Boston, 782.

 A Descriptive Catalogue will be mailed free to any address upon request.

## SPECIAL NOTICE.

Employees, authorized to examine, exchange or remove any of the Company's apparatus, are furnished with a badge of the following description:—A blue bell bearing the Company's name, a number, and the word Inspector, designating the wearer's employment.

Subscribers are earnestly requested not to allow interference with their telephone instruments unless the badge can be shown.

---

## EMERGENCIES.

In case of sickness, fire or other serious emergency, it is the wish of the Company that the persons in charge of its offices shall extend such assistance to its subscribers in the way of summoning assistance or obtaining information as they can, consistently with the performance of their regular duties. But it is understood that such services are given only as an accommodation to the subscriber, for which the Company cannot assume a new responsibility of any nature.

---

## News of Expected Arrival of Ocean Steamships in Boston.

By arrangement with the Boston Office of the Cunard Steamship Co. (limited) information received by it of the arrival of its ocean steamships off Boston Harbor, will be immediately communicated to the chief operator of the Milk Street, Boston, Exchange.

Subscribers desiring to receive notice of this news should previously call "Boston number 231."

The New England Telephone and Telegraph Company assumes no liability for failure or mistake in transmission of news, but the management of its Boston Exchange will use its best endeavors to promulgate information as above referred to.

---

## NON-SUBSCRIBERS.

Persons who are not Exchange subscribers can use the telephones at the offices or public pay stations at a cost of fifteen cents for each conversation of five minutes with any subscriber of the Boston or Suburban Exchanges, and regular rates to other points.

The use of subscribers' instruments by non-subscribers is not permitted, such use being in violation of the subscriber's contract.

Messenger service, when required, will be charged for in addition to the regular tariff rate.

For the accommodation of non-subscribers and the public generally, the Company has established public telephone pay stations in different parts of the city. See pages 32 to 37.

# New England Telephone and Telegraph Company.

## PUBLIC TELEPHONE PAY STATIONS.

### BOSTON DIVISION.

For the accommodation of non-subscribers and the public generally, the Company has established public telephone pay stations in different parts of the city.

All Persons, Whether Subscribers or Not, must Pay for Use of Telephone at Public Pay Stations.

## FOR THE ACCOMMODATION OF

Non-Subscribers and the Public Generally, the Company has  
Established Public Pay Stations in Different  
Parts of the City.

IN CALLING FOR CONNECTIONS,

Keep the Telephone to the Ear Until the Exchange  
Asked For Answers.

## **SECTION II.**

---

New England Telephone and Telegraph Company.

---

## **OFFICIAL LIST**

**Of Subscribers Outside of Boston Division.**

For Offices Outside of Boston and Suburban Exchanges.

## Instructions and Important Suggestions.

### DESTROY ALL PREVIOUS LISTS.

THE NEW ENGLAND TELEPHONE AND TELEGRAPH COMPANY ASSUMES NO LIABILITY WHATEVER FOR DAMAGES ACCRUING FROM ERRORS OR OMISSIONS IN THE MAKING UP AND PRINTING OF THIS BOOK.

### CALLING.

When the office is called, the operator will say, "What number?" naming her exchange.

You will then give the number wanted, the operator will at once repeat the number.

If the line is in use, the operator will answer, "Line busy." If the line is not in use, the operator will say, "Line connected." For example: A subscriber calls for 75-2. The operator repeats "75-2." If the line is found in use, she will say, "Line busy." Otherwise she will make the connection and say, "Line connected," and the way is open for conversation. If the station connected fails to answer within 30 seconds, hang the telephone on the hook and give one sharp ring. The operator will inquire "Finished?" Upon being informed that communication has not been established, the operator will then ring a second time.

After your conversation is finished hang up the telephone and give one short ring, as this clears the line for another call. Uniformity of method saves time for everyone.

In calling for connections, keep the telephone to the ear until the Exchange asked for, answers.

When calling for offices beyond the limits of the local exchange give to the operator answering your call your telephone number and name, and the exchange, number and name of party desired.

### ANSWERING.

Answer promptly when you are called, as this is essential to good service. By so doing you will save time for your correspondent and for other subscribers.

### IN GENERAL.

Never leave the telephone till you have finished, as the operator will disconnect if she finds no one using it. Hold the telephone firmly to the ear. Speak in an ordinary tone of voice as close to the transmitter as possible. Always return the telephone to its proper place after using it, otherwise the Central Office cannot call you, and your battery will be speedily exhausted, so that you cannot talk through your transmitter.

We ask and expect courteous treatment for our operators, who are forbidden to directly receive any complaints from our subscribers, because all their time should be taken up in forming connections.

All persons, whether subscribers or not, must pay for use of telephones at public stations.

The use of the telephone is limited to the subscriber, his family, or employee in his interest. Subscribers have not the right to allow its use by other parties. Instruments may be removed if this condition of the lease is disregarded.

## INSTRUCTIONS AND IMPORTANT SUGGESTIONS.

Subscribers are requested to refer those desiring the use of the telephone to the nearest PUBLIC PAY STATION.

Subscribers wishing telephones removed are expected to give thirty days' notice in *writing* in accordance with their contracts.

A residence subscriber, whose contract for one year has expired, who shall request disconnection of his instrument on account of absence from his house, will be allowed a rebate of rental of 50 per cent. for the period of such absence, not, however, to exceed five months in any year. Payment of rental, as the same becomes due, will be required during absence.

The cost of moving instruments from one location to another will in all cases be charged to the subscriber.

NOTICE— During thunder showers calls will not be answered.

## COMPLAINTS.

Owing to the extreme sensitiveness of the telephone to many disturbing causes even with the exercise of great care on the part of the Company's employees, the instruments may work unsatisfactorily without our knowledge, and we are in great measure dependent for information of defective service upon our subscribers, who are EARNESTLY REQUESTED TO REPORT at once to the exchange manager or by letter to the division superintendent any failure to obtain prompt attention and efficient service.

Our inspectors often find that trouble which subscribers have in being heard is caused by the use of various forms of mouth pieces, attachments which are being sold to telephone users under different names.

Subscribers are asked to decline the use of all apparatus in connection with the telephones other than that furnished by the Company under contract.

To insure prompt connections, subscribers are requested to use the latest issue of our list, as it frequently becomes necessary (on account of removals) to change numbers, although every effort will be made to retain them.

## TOLL LINE CONNECTIONS.

### IN GENERAL.

When a subscriber, who has more than one station in the same exchange, is called over a toll line, if he be not found at the first station called, the operator shall, if so requested, then call his other stations, and but one toll charge shall be made.

Whenever from any cause the subscriber thinks a charge should not be made, the facts must be reported to the manager within twenty four hours or no rebate can be made.

All Toll line connections are charged to the subscriber from whose instrument they originate.

Subscribers are responsible for all toll connections made from their respective stations.

Bills for toll line service will be presented monthly for payment, and parties who do not pay their bills promptly will be refused the use of toll lines.

For rates to all principal points in New England and discount on Toll and Extra-territorial business, see Tariff Sheet, page A.

### FROM PUBLIC STATIONS.

All communications will be charged for, and at the highest established rate, whether prepaid or collect.

When communication is established with a station not listed as a public station a toll charge will be made whether the person wanted is present or not.

When connection is established with a public station and a person is sent for to come to the telephone, the toll and messenger charge, if any, must be collected in advance.

If the messenger is unable to find the party desired and no communication is established the toll charge will be refunded.

When the person sent for comes to the telephone and the sender for any reason does not stay to talk with him, no rebate will be made.

A toll charge will be made in cases where the party sent for refuses to go to the telephone.

### FROM SUBSCRIBERS' STATIONS TO PUBLIC STATIONS.

When a call is made for a person to go to a public station telephone, and communication is established between the person called for and the station of the party calling, a regular toll charge will be made, also messenger charge, if any. One toll charge only will be made for such transaction.

If the person called for is not found, or if connection cannot be established with the calling subscriber's station, only the charge for messenger service will be made.

### REPETITION OF COMMUNICATIONS.

This Company furnishes its facilities for personal communication between parties. Repetition or assistance by the operator will be permitted only when necessary to facilitate business, and then only upon request of the party communicating and upon the distinct understanding that the Company assumes no responsibility for error.

### DELIVERY OF MESSAGES.

The NEW ENGLAND TELEPHONE AND TELEGRAPH COMPANY assumes no responsibility for the delivery of messages by messengers beyond the amount paid by the sender for such message.

### IT MAY BECOME NECESSARY TO CHANGE NUMBERS.

Subscribers should bear this in mind when having printing done, and it is suggested that the words "Connected by Telephone" be used in advertising instead of the number. If, however, the number is used, the NAME of the exchange should always precede it.

### TELEGRAMS BY TELEPHONE.

The Telephone Company permits the use of instruments and wires for placing subscribers in communication with the offices of the Western Union Telegraph Company for the purpose of sending dispatches.

The Telephone Company does not assume any responsibility for the correct transmission of messages, nor does it collect the charges for such messages.

If subscribers desire to send telegrams by telephone, they must first arrange with the Western Union Telegraph Company, by personal application at the Company's offices, for the reception and transmission of their telegrams and payment of the charges.

Messages received by the Telegraph Company addressed to subscribers of the Telephone Company, can be transmitted to such subscribers within the exchange from the telephones placed in the Telegraph Company's offices, without additional charge to the subscriber. But the Telephone Company assumes no responsibility for the correct transmission of messages and does not collect the telegraph charges.

If subscribers desire that telegraph messages addressed to them be delivered by telephone, they should make application to the Telegraph Company for such delivery.

## PRIVATE LINE DEPARTMENT.

The Private Line Service provides for the connection by telephone, at small cost, of offices or apartments in public buildings, hotels and apartment blocks, office buildings, manufactories and stores, detached shops and offices of manufacturing establishments, farm buildings, house and stables, residences, mills or business houses, separated by a distance of twenty-five miles or less.

### SPEAKING TUBE SERVICE.

In order to meet the rapidly increasing demand for an inexpensive service for use in hotels, public buildings, stores, factories, manufacturing and business establishments of all kinds, especial attention has been given to the work of designing instruments and apparatus suitable for the rendering of the most efficient service, and we are now prepared to offer, at greatly reduced rates, the highest grade of telephone instruments and appliances for use in connection with our various systems.

One of the recent developments in telephony which presents many advantages over the ordinary methods commonly used, is that known as the "Common Battery System." For speaking tube service it has marked advantages over any other system yet devised, and will render the most excellent service. Instead of providing a separate battery for each instrument, as has been the custom heretofore, the entire plant is operated by a single set of batteries, which in many cases may not only be used for talking, but for calling purposes, thereby dispensing with the magneto generators.

These batteries may be located at any place where they can be easily kept in order, and a less number is required than in cases where a separate battery is used for each instrument, as is necessary when other systems are employed.

Upon application to any exchange, or to the Executive Office, the Company will be pleased to furnish additional information and to prepare estimates of the cost of installing the wires, instruments and apparatus.

As we use only the best materials, and employ only competent men for installing these systems, our patrons may be assured that all work will be done in a most thorough manner.

### INSTRUMENTS AND APPARATUS.

In view of the fact that telephone instruments are of necessity of delicate construction and peculiarly subject to accidental injuries and to defects which can be found and remedied only by experts, it is our opinion that the requirements of our patrons will be better satisfied by lease, thus securing to the lessee the privilege of returning defective instruments for replacement or repair, than by the sale of the limited portion of the telephone equipment which can be sold, and the assumption by the purchaser of risks of defects and the expense of repairs and depreciation.

Users of telephones and transmitters leased from this Company secure the advantages of inventions and improved instruments which are not the subject of sale.

As the style of instruments and apparatus required will depend upon the conditions under which the system is to be operated, each case should be considered separately, and for this reason we suggest that parties desiring to lease instruments for the purposes herein described make application to the general office of the Company, stating fully their requirements.

If further information should be desired, the Company will be pleased to furnish it, upon application to its Executive Office, 125 Milk Street, Boston, Mass., or by calling for Telephone, Boston, 782.

 A Descriptive Catalogue will be mailed free to any address upon request.

## SPECIAL NOTICE.

Employees, authorized to examine, exchange or remove any of the Company's apparatus, are furnished with a badge of the following description:—A blue bell, bearing the Company's name, a number, and the word Inspector, designating the wearer's employment.

Subscribers are earnestly requested not to allow interference with their telephone instruments, unless the badge can be shown.

## EMERGENCIES.

In case of sickness, fire, or other serious emergency, it is the wish of the Company that the persons in charge of its offices shall extend such assistance to its subscribers in the way of summoning assistance or obtaining information as they can, consistently with the performance of their regular duties. But it is understood that such services are given only as an accommodation to the subscriber, for which the Company cannot assume a new responsibility of any nature.

## NON-SUBSCRIBERS.

Non-Subscribers desiring to make use of Telephone facilities can do so by applying at the Company's Central Offices and at Public Pay Stations, upon payment of the established rates for public use.

The use of subscribers' instruments by non-subscribers is not permitted, such use being in violation of the subscriber's contract.

Messenger service, when required, will be charged for in addition to the regular tariff rate.

## HANG UP THE TELEPHONE LARGE END DOWNWARD

When the conversation has been finished, and give one short ring as a signal to disconnect the wires which you have just used. This is highly important. Until such disconnection is made you cannot call again nor can another party call you.

## HANG UP THE TELEPHONE LARGE END DOWNWARD

When the conversation has been finished, and give one short ring as a signal to disconnect the wires which you have just used. This is highly important. Until such disconnection is made you cannot call again nor can another party call you.

## OWING TO THE EXTREME SENSITIVENESS OF THE TELEPHONE

To many disturbing causes, even with the exercise of great care on the part of the Company's employes, the instruments may work unsatisfactorily without our knowledge, and we are in great measure dependent for information of defective service upon our subscribers, who are earnestly requested to report at once any failure to obtain prompt attention and efficient service.

## OWING TO THE EXTREME SENSITIVENESS OF THE TELEPHONE

To many disturbing causes, even with the exercise of great care on the part of the Company's employes, the instruments may work unsatisfactorily without our knowledge, and we are in great measure dependent for information of defective service upon our subscribers, who are earnestly requested to report, at once, any failure to obtain prompt attention and efficient service.

## HANG UP THE TELEPHONE LARGE END DOWNWARD

When the conversation has been finished, and give one short ring as a signal to disconnect the wires which you have just used. This is highly important. Until such disconnection is made you cannot call again nor can another party call you.

## HANG UP THE TELEPHONE LARGE END DOWNWARD,

When the conversation has been finished, and give one short ring as a signal to disconnect the wires which you have just used. This is highly important. Until such disconnection is made you cannot call again nor can another party call you.

We have yielded to the importunity of our customers to manufacture a perfect Paste Polish. We offer the **“SUN PASTE”** and recommend it. It does not dry up or rust the box.

The **“RISING SUN”** Stove Polish in cakes has been upon the market for thirty years, and for general blacking of a stove it is unsurpassed.

The increasing use of Long Distance Transmitters makes it desirable to use **SOUND PROOF BOOTHS**, not only in public stations but also in subscribers' offices.

## PRICES OF STANDARD BOOTHS AND FIXTURES.

[SUBJECT TO CHANGE WITHOUT NOTICE.]

SEE ILLUSTRATION.

No. 1.	In Oak or Cherry—glass all around,	-	-	-	-	-	-	\$250.00
No. 2.	“ “ “ —glass front and sides,	-	-	-	-	-	-	200.00
No. 3.	“ “ “ —glass front and one side,	-	-	-	-	-	-	165.00
No. 5.	“ “ “ “ “ “ “ “	-	-	-	-	-	-	137.50
No. 6.	“ “ “ “ “ “ “ “	-	-	-	-	-	-	112.50

## FIXTURES.

Standard Rugs for Nos. 1, 2 and 3 booths,	-	-	-	-	-	-	\$6.50
Standard “ “ “ 5 and 6 booths,	-	-	-	-	-	-	3.50
Standard Stools in ash,	-	-	-	-	-	-	2.75
Window Draperies on adjustable fixtures, per pair,	-	-	-	-	-	-	3.00
Single Curtains, half pair for side window, each,	-	-	-	-	-	-	1.37
Electric Light Brackets,	-	-	-	-	-	-	1.50

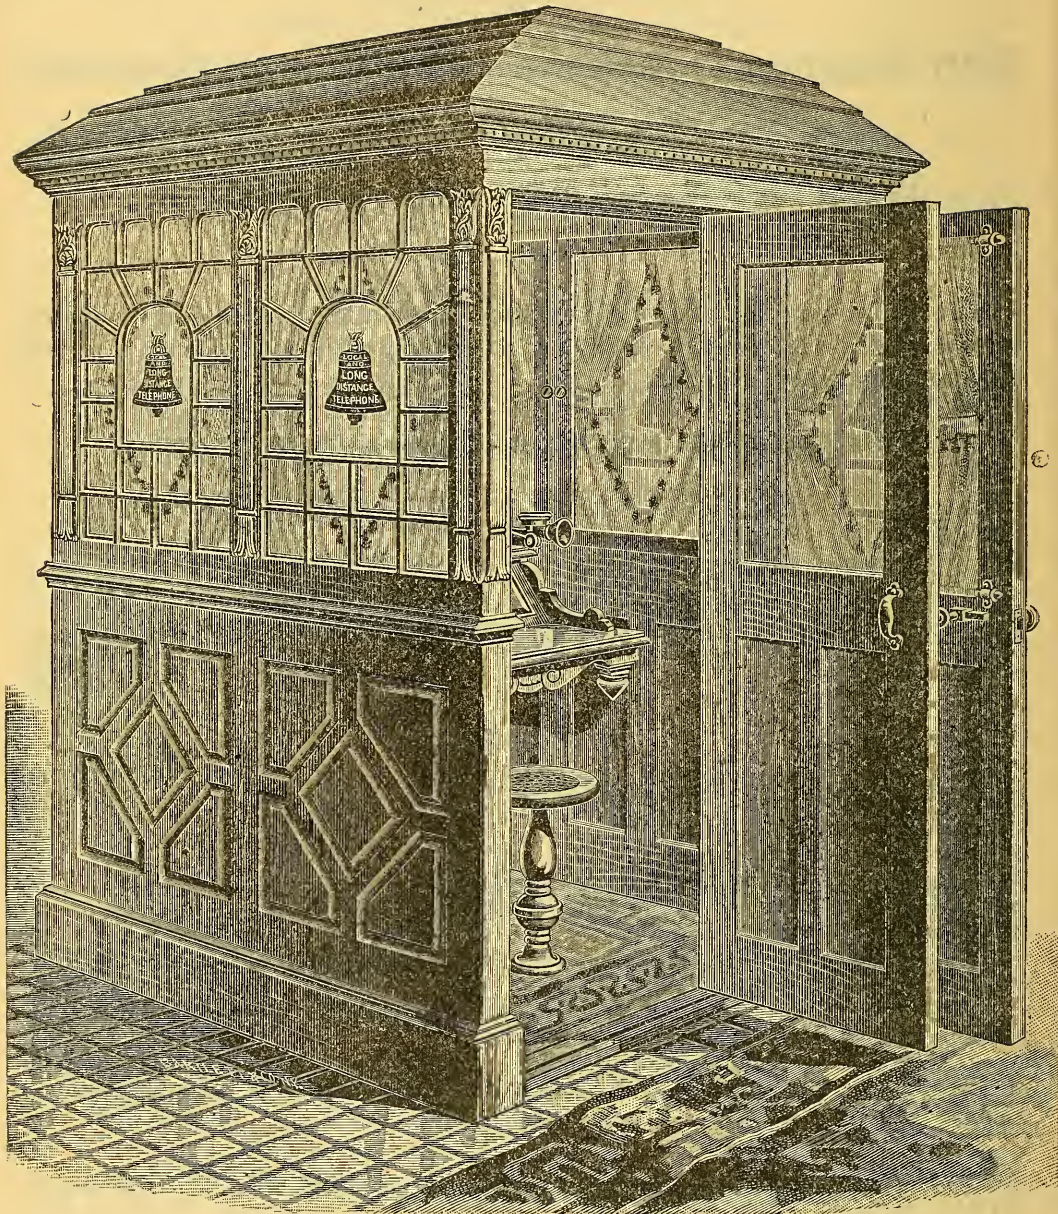

The Booths illustrated, Nos. 10 and 11, are in their sound proof qualities equal to the “Standard” Booths.

They are so constructed that they can be set up and taken down with a minimum of labor and without skill or the use of tools.

The sides are joined together by butts, so that to fasten them together, it is only necessary to put the pins in the butts, and to take them apart it is only necessary to remove the pins. The sides are interchangeable.

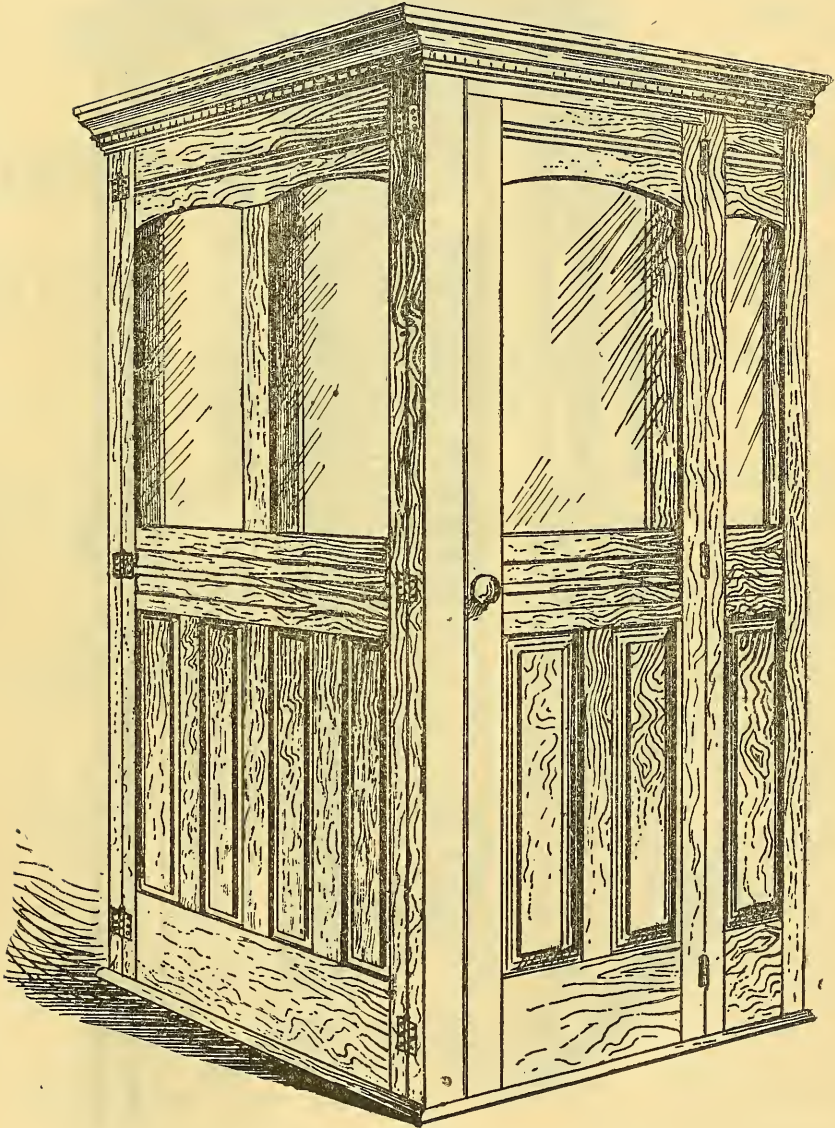

*All information desired can be obtained by applying to the Supply Department of the New England Telephone and Telegraph Company,*

**GEO. W. TOWNSEND,**  
**Submarine Diver, Engineer and Contractor.**

As many drowning accidents occur, in every vicinity, I desire to call your attention to the invaluable utility of the Submarine Diving Armor for the sure and prompt recovery of drowned persons. I have a staff of experienced, reliable Divers, fully equipped, and ready to proceed at once to the scene of disaster. Do not permit the inhuman and brutal practice of using barbed hooks and pointed grapplings, which lacerate the flesh and mutilate the remains. Telegraph without delay, as soon as the accident occurs, as time is of the utmost importance, in order to locate the body before it becomes extended by gas, and is swept away by the current.
